

EIGHTYTWO™

EIGHTY TWO

RETURN TO OUR ROOTS.

WHAT

- + Eighty Two symbolizes a return to our roots here at Allseating, with its name being a direct reference to the year the company was founded, 1982.
- + Allseating's latest seating solution is a customizable and comfortable task chair at a highly affordable price point. To pay homage to Allseating's 40th anniversary, this task chair was envisioned by the company's CEO and Founder, Gary Neil, with the intention of celebrating the core values on which Allseating was built: stylish, intuitive, and affordable design.
- + Eighty Two proves that innovative design should be accessible to everyone – and that 40 years later Allseating continues to uphold this mandate.

WHY

- + Most businesses currently have reduced budgets but are still looking for cost-effective ways to provide value in their customization, comfort, and ergonomic features.
- + The home office is one of the largest growing trends in our industry. Designers are looking for low-cost highly ergonomic seating solutions to populate these new spaces.
- + With the changing needs of office space planning due to new standards for safe distancing, many companies are investing in a redesign as they reopen their offices to both their employees and the public. Stylish, modern design solutions are needed at lower costs.

HOW

- + Features a standard adjustable lumbar to provide sufficient back support throughout the entire workday. The lumbar is height adjustable to target sensitive vertebrae and to fit all body heights.
- + An optional seat slider allows for simple and intuitive calibration and ensures users of all height and body types are comfortably accommodated.
- + Basic synchro-tilt mechanism allows the users' feet to remain on the floor as they tilt backwards, ensuring optimal comfort and safety.
- + Three (3) arm options along with an optional adjustable width bracket allow for further ergonomic optimization. Available arm options include a fixed arm, a height-adjustable arm with sliding arm caps, and a pivoting arm.
- + Optional Sit to Counter cylinder available, providing 8" of vertical travel in seat height. Optimal for use with height-adjustable desks, standing desks, and countertop workspaces.
- + Allseating's new sheer style M11 Mesh is the standard and is lightweight yet durable and available in 4 colors inspired by the 80's decade: Mixtape, Stardust, New Wave and Arcade. M11 has a soft aesthetic and provides great support. The translucent pattern lends to a neutral look that makes Eighty Two an elegant and sophisticated addition to any space.
- + Available in a Black finish for a classic look, with Birch frame finish coming soon.

DESIGNER

- + Since 1982, Allseating has developed a reputation for quickly adjusting to the changing needs of customers in the office, educational and healthcare sectors. Today, Allseating has evolved to have product designs for more environments than ever, truly demonstrating the concept of anywhere in all that we do. Inspired by our founder and CEO, Gary Neil, the Allseating team has become known for delivering excellent customer service at every touchpoint.
