

MEET IN
A JIF.™

JIF SWAY BASE AND
JIF STILL BASE

**CREATE
IN A JIF.**

In today's open, mobile workplace, needing a comfortable spot to gather for short meetings happens at a moment's notice. Jif can be arranged around a coffee table for breakout meetings or across from a sofa or bench to fill out a circle. At a workstation, the stool can be stored out of sight underneath a desk and pulled out when needed.

Collaborate in a Jif.

Jif is a modern stool designed in collaboration with Canadian designer Aaron Duke. Embracing simple, elementary shapes, Jif features a subtle waterfall edge that provides relief to the hamstring. Jif is available with a Still base or a Sway base for gentle rocking or swiveling. This promotes active sitting by engaging the core, a key component of Allseating's Sit Fit™ product development philosophy.
