

ATTUNE™

Information Guide

BACK LUMBAR SUPPORT

Has three (3) positions to provide support to a variety of users. With both hands, simply lift the back frame and let go at your desired tension. Lift all the way to the top (3 clicks) to release back to neutral.

SEAT HEIGHT ADJUSTMENT

To raise the chair, lift the trigger up while lifting your weight from the seat until you reach the desired height. Release the trigger to lock into place. To lower the chair, lift the trigger up allowing your weight to push the seat down to the desired height. Release the trigger to lock into place.

CASTER BASE

Standard nylon base available in black, birch, and polished aluminum.

ARM

Available armless or in two (2) arm options: loop arm or height adjustable arm.

FINISHES

Seat and back available in five (5) polypropylene finishes or with an upholstered seat or back pad. Frame available in two (2) finishes, black or birch.

AUTOMATIC TENSION ADJUSTMENT

An intelligently designed C-Clip portion of the seat creates an automatic tension adjustment, essentially turning the chair itself into the mechanism.
